Service Disruption Notice – Brisbane & Wider Qld region (Update 7/2/11)

Due to the recent disasters with Cyclone Yasi and flooding, there will be delays to deliveries to these areas. Road services are now available but delays should be expected due to the backlog in the Distribution Centres.

It is recommended that customers use delivery services utilizing airfreight (all Australian Air Express services or Toll Ipec Express) and avoid Road Services as the preferred method of delivery – this will ensure freight is flown to airports that are open and then delivered by road wherever possible.
